Bridge House Medical Centre is the best!

We moved to Stratford-Upon-Avon over 40 years ago and immediately registered with Bridge House Medical Centre having had several recommendations.

Throughout that time we have always received excellent service, but it is not just the service that impresses us. It is the kindness, the caring, the friendliness. Nothing is too much trouble.

The Receptionist team is excellent even though they are always so very busy. No matter what confronts them there is always a smile on their faces. Always a kind word to cheer us up.

Both my husband Ken and I have had our difficult health issues over the years, but never have we been let down or felt neglected. We have received brilliant backup and care from all the doctors in the practice.

Recently Ken was rushed into Warwick Hospital after one of our wonderful GPs at BHMC became concerned. The Consultant comrnented that "we are well supported by an excellent surgery"

A few years ago, we wondered whether to move to East Devon but the thought of leaving BHMC was without doubt the decider and so we stayed.

Angela and Ken Martin

Angela is one of our valued committee members at the PPG , and when she told us how much she and her husband had benefitted from the care received by BHMC, we thought she should share their story!
